## ABOUT THE EVENT

The move from specialist to strategist, from ledger to leader, is far from straight-forward. Technical expertise provides a solid career footing, but leadership demands a dynamic and finely-tuned set of skills. Recent years have seen a greater evolution of the traditional control responsibilities of finance functions, with organisations expecting more from their finance teams than ever before.

This interactive course will address core technical and leadership skills, enabling you to step up as a fully-fledged finance business partner. You will walk away with the tools to lead under pressure, learn high-level communication skill to empower you as a leader of change, and be braced to tackle any challenge.
