ABOUT THE EVENT

In an environment where evidence is paramount, Critical thinking and communication are highly valued skill sets and will set you up as a high performing leader of the future. Critical thinking is the art of analysing, processing and understanding information. Critical thinkers can draw reasonable conclusions from a set of information to distinguish useful (and useless) details for decision-making. But let's not forget the value of communication. Industry leaders must know how to entwine critical thinking and communication skills.

We have developed this practical training program to kick start your journey to becoming a discerning critical thinker. It will provide you with the foundations for developing your strategic foresight, and enable a marriage between objective analysis and effective communication skills. Delve into practical critical thinking concepts, scenario development and analysis, and high level communication techniques to maximise and support your career.

YOUR FACILITATOR

Jo Wise is a Leadership Coach, Keynote Speaker and Executive Performance & Behavioural Adviser to leaders who really care about what they do and how they do it.

Jo is very passionate about working with leaders in coaching sessions and workplace training seminars to help them up-level their professional brand and executive presence to take their leadership and career to new heights in a sustainable way.
