## ABOUT THE EVENT

Science communication is part of a scientist's everyday life. As a Scientist, you must give talks, write papers, proposals and communicate with a variety of audiences, and educate others. It's not just about your skills, but about your strategy. To be successful you must know how to effectively communicate across multiple disciplines to foster collaboration, innovation and be a better teacher for next-generation scientists.

Through various communication avenues and tactical relationship building, you can drive productivity and positive change whilst creating a strong supportive network for your team. This practical workshop will help you understand the complexities of public discussions and decision making, to help you consider how, when, and where your science is most relevant, and who you talk to.

## WHO WILL ATTEND?

This workshop is suitable for anyone seeking to make their communication efforts more strategic and relevant for their audience.

- ▶ Principal Research Scientists
- ▶ Technical Leaders
- ▶ Senior Science Coordinators
- ▶ Research Managers
- ▶ Scientific Professors
- ▶ Scientific Project Managers
- ▶ Heads of Science
